

Center Drug Pharmacy, located on the 1st floor of the 212 Medical Building, can help to get you home quicker after your surgery, and eliminate the need to stop anywhere else to wait while your prescriptions are filled.

While you are recovering in the post-surgery suite, Center Drug will fill your take-home medications and have them ready for your caregiver to pick up in the pharmacy. No additional wait time will be necessary on your part, so you may get home and start your recovery process sooner.

With each prescription filled, you will be provided with printed medication information sheets and any questions that you, or your caregiver, may have can be answered by the pharmacist on-duty, or by simply calling us at 952-949-1002. We are here to help make your surgery recovery as smooth and worry-free as possible.

If you choose to have Center Drug fill your post-surgery medications, simply let the pre-op staff know that you would like our pharmacy to fill your prescriptions. The surgery center will share with the pharmacy the information needed to fill your prescriptions on your insurance. Co-payments will be collected from you or a caregiver at the time of medication pickup. We accept Cash, Visa, MasterCard, Discover, American Express and HSA/FSA cards as forms of payment.

We look forward to assisting you and your family on your appointed surgery day. Please feel free to contact Center Drug if you have any questions.
